

Amendments to the Claims

1. (Currently Amended) A method comprising:

when a person tunes a television to a given station, a video server responsively sending a Short Message Service (SMS) message to a designated destination, indicating what station is being watched,

wherein sending an SMS message to a designated destination comprises sending the SMS message to a parent of the person.

2. (Original) The method of claim 1, wherein the video server comprises a host device serving the television.

3. (Original) The method of claim 2, wherein the host device comprises a cable-TV receiver.

4. (Original) The method of claim 2, wherein the host device comprises a satellite-TV receiver.

5. (Original) The method of claim 2, wherein the person tunes the television by tuning the host device.

6-14. (Cancelled)
